

# DECOMPOSERS

## Decomposer Information Sheet

- Research your decomposer.
- Create a WANTED poster, which clearly shows the information you have researched in a creative, colorful, and professional manner.
- This assignment will be completed in-class.
- Your information sheet should included:
  - Name of the decomposer
  - Picture/Drawing of the decomposer
  - Description of what your decomposer looks like (size, color, parts, etc.)
  - Where does it live? (Where is it most commonly found? What areas does it thrive in?)
  - What does your decomposer do? (What is its job? Why is it important?)

### Decomposers:

1. Earth Worms
2. Fungi
3. Moss
4. Termites
5. Bark beetles
6. Millipedes
