

## Minecraft Challenge Submission Rubric

When students submit the one-minute video of their reasoning behind the design, candidates will include the following success criteria in their submission:

- Student introduction
  - First name and first initial of their last name
  - Enrollment grade and school name
- What problem(s) have been identified from analyzing the space?
- How does the design address the problems identified?
  - Can the student explain the strong relationship between Calgarians and how they connect with the downtown spaces in their own words and provide powerful, clear examples from their build?
  - Does the explanation encourage citizens to connect, live, work and play downtown?
  - References to the four pillars in their build/design \*(based on age group)

	Beginning	Developing	Well-developed	Mastery
Shares reasoning about why their design is a strong fit for downtown Calgary, “How might we reimagine our public spaces to enrich the lives of Calgarians and strengthen our community?”	Responds to the prompt. The statement made may be rephrasing the prompt.	Presents a reason that connects to a personal experience in relation to the design.	Shares a reason that clearly takes a position of the design. Student can somewhat use the concepts learned in the explanation.	Shares reasoning that explains clearly why their design is a strong fit.
Comments (Include any additional comment that pertains to the student’s design):
